

11th Congress of the French Society of Angiogenesis Autrans, June 4th-6th 2025

Registration: sfa2025.sciencesconf.org

Abstract submission until April 11th

Early bird rates until April 21st

Keynote speakers

Shahin Rafii, Cornell University, New York City

Martin Schwartz, Yale University, New Haven

Sessions and invited speakers

Organ specificity of endothelial cells : Benoit Vanhollebeke (Brussels, Belgium)

Vascular resilience and plasticity : Stephanie Dimmeler (Frankfurt, Germany)

Immune modulation of vascular function : Laurent Yvan-Charvet (Nice, France)

Metabolism and epigenetics : Michael Potente (Berlin, Germany)

Lymphangiogenesis : Amélie Sabine (Lausanne, Switzerland) and Barbara Garmy-Susini (Toulouse, France)

Vascular malformations and pathological angiogenesis : Guillaume Canaud (Paris, France) and Giorgio Seano (Paris, France)

Mechanobiology of the endothelial cell : Hans Van Oosterwyck (Leuven, Belgium)

Vascularization of organs on chip : Laurent Muller (Paris, France)

Organizing committee: Claire Bouvard, Agnès Castan, Eva Faurobert, Nicolas Ricard
